

## DIGITAL pH METER MK VI

DIGITAL pH METER Mark VI is a compact four-digit instrument for routine analysis in a chemical laboratory or student usage in a teaching institution. The instrument uses ICs for making it accurate and reliable. The equipment is supplied with a set of glass and calomel electrodes. It works on a nominal 230 volts 50Hz mains supply and comes in a pleasant two-tone metal cabinet.

**SPECIFICATION :**

pH Range : 0 to 14 pH
